

Container Defense Property Accountability System (DPAS) Warehousing Application

United States Marine Corps
Individual Issue and Unit Issue Facility
(IIF and UIF)

Implementation Training Course

William V. Richardson Jr. and John T. Barrera

Purpose

- To demonstrate the capability to create, make updates and delete Container(s) used for storage and item location.

Background

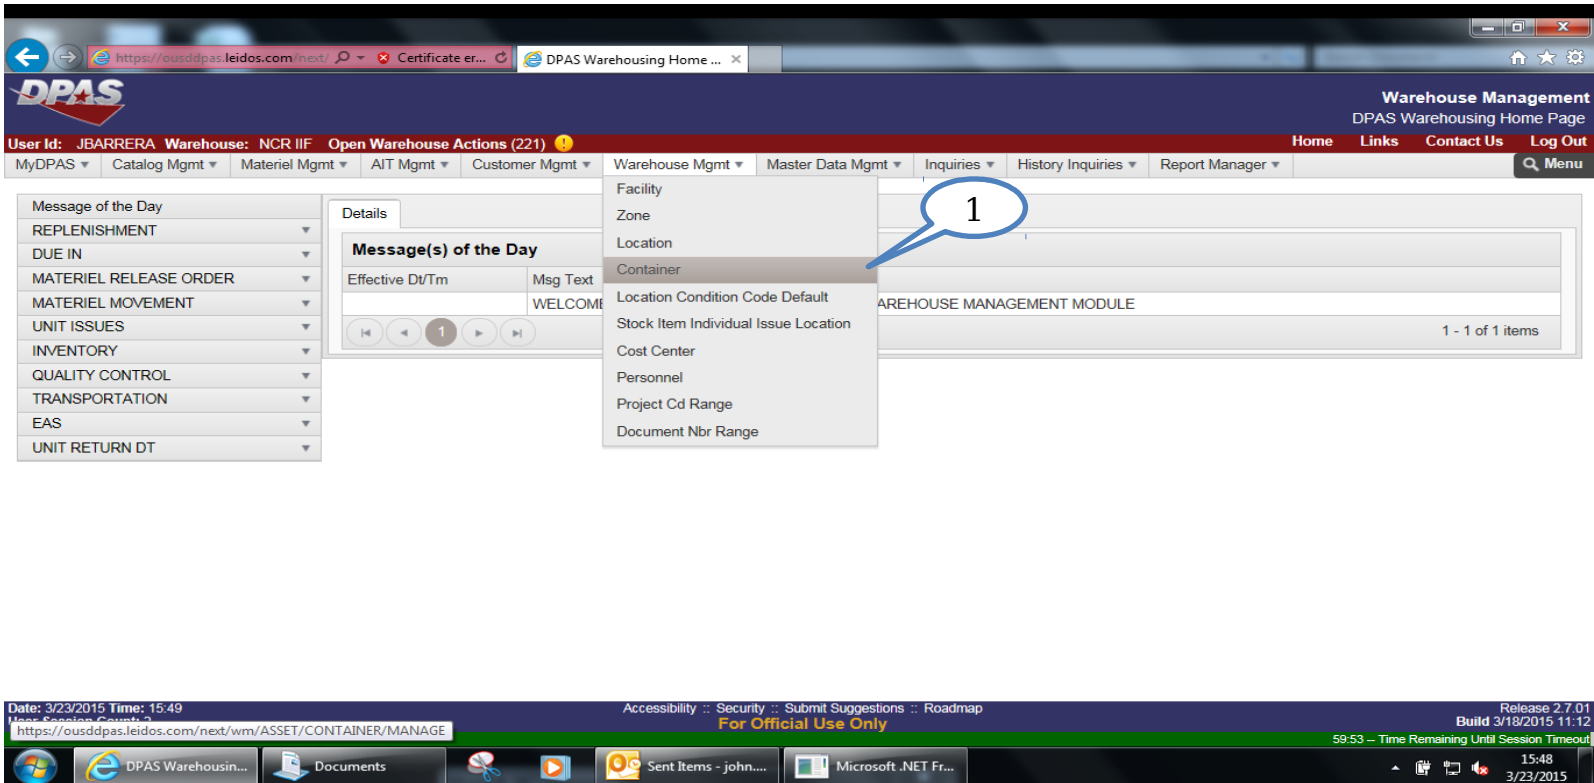

- Once a Container Type is established, containers can be used to represent storage platforms ranging from pallets to cardboard boxes to tri-walls.
- Locations must be available prior to creating a container since they will always have an associated location.

Situation

As the Site Manager at a Region, the Warehouse Officer has directed you to create a Warehouse Container used for overflow storage and make any necessary adjustments such as: updates and deletions.

Container

Navigate to Warehouse Mgmt tab.
(1) Click on the 'Container' option.
